

[Plenary talk speaker]

Prof. Jong Chul Ye

Professor, Korea Advanced Institute of Science and Technology (KAIST), South Korea

Prof. Jong Chul Ye specializes in biomedical imaging, signal processing, and artificial intelligence. He is a Fellow of the IEEE and a leading researcher in deep learning-based image reconstruction for MRI and CT. At KAIST, he leads innovative research at the intersection of AI and medical imaging. He has received numerous awards and serves on editorial boards of top-tier journals in imaging and signal processing.
